6+
Year Experience

10+
Projects Completed

• Cooperation

Designing solutions customized to meet your requirements

Web & App Development
Crafting visually appealing and user-friendly interfaces using HTML, CSS, JavaScript, and modern frameworks like Tailwind CSS or Bootstrap, React or Next.js, and TypeScript

Database Management
Designing and managing databases with SQL technologies such as MySQL and PostgreSQL.

API Development
Building scalable backend architectures using RESTful APIs, WebSockets, and gRPC to ensure lightning-fast data exchange and seamless real-time synchronization between systems.

Scalable System Architecture
Designing robust Monolithic or Microservices architectures tailored to your project scale. I optimize web performance using Golang + gRPC for high-efficiency services and Laravel for stable, maintainable backend solutions.

Custom Digital Ecosystems
Crafting diverse digital solutions tailored to specific business needs. I specialize in building secure, high-traffic web applications with complex management features and seamless integrations, regardless of the industry.

Integrating AI
Boost your applications with AI for improved efficiency, automation, and enhanced user experience

Excited to take on new projects and collaborate. Let's chat about your ideas. Reach out!

🎓 Education

- **2026** Present (Upcoming) Bachelor of Information Technology (S1)
  Pursuing a formal degree to complement my practical expertise and professional background in the IT industry.

- **2020** Al-Qur'an Memorization (30 Juz) – Markaz Tahfidz Raudhotul Muhibbin
  Completed 30-chapter of memorization, reflecting my dedication and attention to detail in every technical project.

- **2014** Associate Degree (D3) in Management Informatics – Univ. Bina Sarana Informatika
  Focused on Information Management, Database Systems, and Programming Fundamentals.

- **2009** Primary to Secondary Education – Bina Utama School
  Completed SMK (Vocational High School) with a focus on technical skills.

💼 Experience

- **2019-Now:** Present Fullstack Web Developer | PT. Kitereative Teknologi Indonesia (Remote)
  Building a wide range of custom digital solutions, including E-commerce, EdTech, and diverse Enterprise-grade systems.

  Developing high-concurrency backend services using Golang (gRPC) and Laravel to ensure maximum performance and scalability.

  Crafting dynamic, responsive user interfaces with React, Next.js, and Tailwind CSS.

  Translating complex business requirements to robust web applications for various industry sectors.

- **2013-2018** Video Editor & Designer| PT. Media Utama Televisi Pontianak
  Handled professional video editing and visual design for broadcasting needs.

  Developed a strong foundation in digital creative tools and visual communication.

• Projects

My Recent Works

Integrated Pharmacy Management & Administration System

Developed a high-stakes web platform for the Indonesian Pharmacists Association (IAI). Built under a strict 2-month deadline for a national event attended by the Ministry of Health (Kemenkes).

Project Info
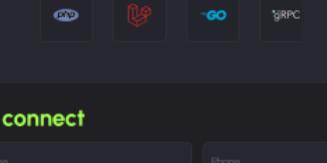

Client   HISFARMA (Indonesia)

Technologies React.js, Tailwind CSS, Laravel, MySQL, FrankenPHP, Caddy, VPS Deployment, Mobile APIs

• My Tech Stack

My Skills

- **Front-End:** HTML, CSS, JavaScript, Bootstrap, Tailwind CSS, React JS, Next JS

- **Back-End:** Laravel, Go + gRPC

- **Databases:** MySQL, PostgreSQL

- **Others:** RESTful APIs, Websocket, gRPC, VPS, Cpanel, FrankenPHP, Caddy, Nginx, Apache
